## BusinessShadow® at SPAR Switzerland

**We use Tivoli Storage Manager to control backup processes, with Libelle BusinessShadow®, a third-party data mirroring solution, for continuous database shadow copy”, says Wolfgang Maehr.**

IBM just released a reference story about the SAP implementation at SPAR in Switzerland. Please follow the link for more information.

"We use Tivoli Storage Manager to control backup processes, with Libelle BusinessShadow®, a third-party data mirroring solution, for continuous database shadow copy", says **Wolfgang Maehr**. "The combination of the hugely reliable IBM hardware, Tivoli Storage Manager and Libelle software offers SPAR excellent data protection."
